

## PROMAX FACE FRAME ASSEMBLY MACHINE

The CSE Automation, LLC **Promax Face Frame Assembly Machine** is an affordable system that squares and clamps most common sizes of base and wall cabinet face frame material prior to manual fastening procedures. Designed for fast material placement and finished product removal.

- *Increase Productivity*
- *Improve Product Quality*
- *Increase Profits*
- *Improve Safety*

- Heavy Duty Frame
- Low Maintenance
- Powered Size Adjustments
- Precision Linear Bearings
- Programmable Controller

The **ProMax Face Frame Assembly Machine** is an affordable system that squares and clamps common sizes of base and wall cabinet face frame material allowing manual fastening procedures. Production rates of 300 to 400 frames per eight hour shift are possible depending upon the frame configuration. Standard joy stick operation allows quick and accurate size adjustments. Down clamps are included to insure flush joints prior to fastening. The frame is ergonomically designed at an angle for easy placement of sub-assembled frame parts and fast removal of the finished product. Operating controls are simple and convenient to minimize training time. Machine functions are air powered with programmable electrical controls for accurate and reliable operation.

Horizontal mullion clamp assemblies for 1-1/2" mullions, vertical mullion clamp assembly for 3" mullion. Mullion clamp assemblies for other sizes produced upon request.

Adjustable clamp pads accommodate 1-1/2" to 4-1/2" stile and rail sizes at 1/4th" increments

## SPECIFICATIONS:

**\*STANDARD SIZE CAPABILITIES:**

Minimum: 12-1/2" wide x 13-1/2" high  
 Maximum: 48" wide x 48" high

***Special Sizes Available Upon Request***

**\*MACHINE CYCLE TIME:**

Approximately 6-8 seconds

**\*ELECTRICAL REQUIREMENTS:**

6 amps @ 110 VAC

**\*AIR REQUIREMENTS:**

50 cfm @ 90 psi

**\*WARRANTY**

6 Month Limited Warranty

***\*Specifications subject to change***
